Dear Ms. Plettenberg,

The intent of this letter is to obtain public information. In accordance with Montana Right to Know laws, Montana Freedom of Information Act, and Montana Open Meeting laws, I am requesting this information.

1. I am requesting meeting minutes from the Ravalli County Health Board Meeting which took place on Wednesday, February 14, 2007

2. For voter registration in Ravalli county, I would like your office to justify the 28,700 voters that are registered at time of election in November 2006. I have found approximately 6,500 K-12 students in schools in Ravalli county. Approximating the (aged 0-5) infants at 3,500 as conservative, that leaves no room for non-registered full time residents of Ravalli county, those who are part time non registered residents, nor those deceased. At a total population in Nov. 2006 at less than 40,000 the number of registered voters does not add up.

For item #2, I imagine that a report has already been written regarding the demographics of registered voters. I also noticed that Butte-Silverbow county has approximately 23,000 registered voters according to the Montana Secretary of State's official results from the November 2006 election.
